Plans Made to Test Ellenburger Sand In Jones Griffin Pool, East of Avoca

Oil circles are slated to watch with a great deal of interest the attempt for deeper production in the Griffin Pool, east of Avoca. Present production is from the Palo Pinto reef and plans have been announced by Ungren & Frazier et al to test for deeper pay, location set at the No. 5 Cox and Hamilton estate, 467 feet from the east and 1,384 from the north line of section 21 block 4 of the H&TS Survey.

Special hearing has been requested for the well, a twin to the same operator's No. 1 and drilling is to begin as soon as permit is granted. The permit, for 5,400 feet with rotary, specifies that the well will not be completed in the regular field pay at about 3,270 feet, nor in any pay above that point.

Ten miles west of Anson, drilling is to begin in the near future on a new 3,900 foot test, the Ungren & Fraizer et al No. 1 H. L. Bartlett 330 feet from the south and east lines of the northwest quarter of section 43 block 2 SP Survey. It is one to be drilled with rotary

Six miles northwest of Merkel, Wrather, Penn & Walters have filed application to drill the No. 1 C.

On permit to 2,60 Ofeet with rotary, the well is a short northeast offset to the Humble Oil & Refining Company, No. 1 Bishop which logged shows both in the Noodle Creek at about 2,600 feet and in the Ellen burger but was plugged after failing to develop commercial production from the deep pay.

The new production area of Jones County three and a half miles north east of Hawley has been given a new extension try in location of the J. C. Hunter Jr., No. 3 W. A. Minter.

On permit for 2,400 feet with cable tools, it will check for King sand est, and the Swastika lime pay ound in the No. 1-B Minter, a ternational. southwest offset.

Meanwhile, operators were preparing to take official gauge after installation of tanks and pumping unit on the J. C. Hunter Jr., No. 1-B W. A. Minter.

The well had been treated with 500 gallons of acid after plug was drilled in casing set at 2,356 feet, five feet below the top of the Swastika lime. Total depth was 2,370 feet. Initial estimates are for about 50 barrels of oil per day.

In the Hardy field, 14 miles east of Hamlin, rainy weather delayed moving in of rig to start the first offset to the pool's new production area, the Great Lakes Carbon Corporation, No. 2 E. V Hardwick. It is to test to the regular field pay, or

Applications for special permits have been filed for two new Wimberly field locations 12 miles northwest of Abilene. They are the Clark & Cowden Drilling Corporation, No. 5 Mashburn estate, and the No. 6 Mashburn. Both applications are for dual completions.

Bromfield Flays Farm Subsidies, Tariffs, Parities

Subsidies, tariffs, parities, price ceilings and all the complications of the nation's agricultural economy are makeshifts which solve nothing and continue to undermine prosperty and living standards, Author Louis Bromfield said at Houston last week as he concluded the annual meeting of the Land Society with a lar.d-use lecture.

"What we need in this country is not more dollars but dollars which buy more and more, and we shall fight it. get dollars which buy more only through intelligent use of our national resources and real wealth," Bromfield told an audience of 1,500

Fort Worth Nearest Texas Stop Slated For Freedom Train

The Freedom's Train tour of 119 major cities in the nation includes stops in 14 Texas cities during January and February and the nearest stop to Hamlin will be at Fort Worth on January 31. The train will be at Dallas on January 30.

The Freedom Train, an idea orinated by Attorney General Tom Clark, is composed of several cars and contains many historical docu-

Assembly of God Special Service Friday Evening

A special worship service will be held at the Assembly of God Church of Hamlin Friday evening, according to the pastor, Rev. T. F. Miles. Rev. Harold C. Miles, son of the pastor and a teacher in Wesleyan College in Fort Worth, will preach. The service will begin at 7:00 o'clock p. m. and everyone is cor-

dially invited to attend. Special musical numbers have been arranged for this service.

American Policy To Grow Firmer Says H-S U Dean

(Editor's Note-The subject of this interview. Dean Stephenson, was born and reared in Mc-Caulley and is well-known there His mother, Mrs. Etta Stephenson, now lives in Hamlin and teaches an adult class in the First Baptist Sunday School. The writer, Grady Lackey, is a journalism major at Hardin-Simmons University. Abilene and is employed parttime at The Hamlin Herald.)

By Grady Lackey

"American appeasement is about to be ended, and a firmer policy is in the making—one that we must be willing to fight, if necessary, to carry out," state W. A. Stephenson, assistant Dean and professor of Govfound in the same operator's ernment at Hardin-Simons Univer-2 Shanks, one location to the sity. Abilene. Stephenson is a former district governor of Rotary In-

> Stephenson believes that Russia defnitely has aspirations toward world domination, and that the only way that the Amercan people can combat it is by presenting the world with a better idea—that of a working democracy.

"Russia now loans as the greatest menace ever to confront the American people. The present communistic program is simed at reducing all people to a commor denominator under state control.

Although com.nunism has improved conditions in Russia, it is directly contrary to the American way of life in that it essentially calls for the submission of the individual, believes Stephenson.

"Russia today is not purely communistic, but is in the control of a very small communistic minority that has complete control of all of the phases of Russian life. The Russian people are not for communism under the present system, but at present have no choice in the matter since, in Russia today, it is a crime to think.

"We do not understand the methods the communists are using to undermine our American institutions.' relates the dean. "The communists are attacking us more through organized labor and have indulged in the misrepresentation of facts to promote confusion and mistrust Communism thrives on confusion and unrest, well aware of the fact that people will throw away everything for security."

Stephenson believes that commun. ism in America can best be combated by educating the American people to a familiarity with and a willingness to fight for our own institutions. At present, the people of the United States are conscious of what is going on, but do not know how to

"It is not the government's duty, but the duty of the people to stamp out the communist move in America," relates Dean Stephenson.

He is under the impression that democracy and communism can exist in a world at peace, but of both schools of thought include the idea tha tone or the other has to be eliminated, war is inevitable.

"The United Nations, at present, is not strong enough to efficiently cope with the problems at hand, but the face an outright disputes are being openly discussed within the UN by delegates is evidenced that we do have a world forum, which is a great

step in the right direction. "If peace can be maintained for 10 years, the United Nations will have gained sufficient power to hold that peace for at lease a generation, possibly longer," concluded Stephenson.

A-N Football Game for Hamlin Set for December 6

Hamlin football fans will have an oppartunity to see ni minature that famous battle of the gridiron-the Army versus the Navy-at Pied Pi-

According to plans announced today (Wednesday) by the Hamlin post of Veterans of Foreign Wars. two teams have been recruited (ughthat's a repulsive word) and the local veterans of both branches service are set to bang one another's

The game will be played on Saturday night, December 6, with the kickoff set for 7:30 o'clock p. m.

Admission will be \$1 per person and the funds derived from sale of tickets will be used to buy uniforms for the group that will conduct military burial services for veterans whose bodies are being returned to the area for final interment. The lineups are as follows:

Orphans Abroad And At Home Are Being Remembered

New and good used clothing are being collected for Buckner's Orphanage, according to Mrs. J. W. Ezell, chairman of the benevolence committee of the Women's Missionary Society of the First Baptist Church of Hamlin, Mrs. Pack Miles, Mrs. Ben Parker and Mrs. R. C. Ritchey are members of this committee. You are invited to bring your contribution to the Baptist Church early this week in order that al contributions may be sent at one

Seven large boxes of used clothing were packed for the needy overseas last Monday by the WMS. Other boxes will be packed and you are urged to search your clothes closets for articles which you can do without that might save some life. Clothes or shoes for any age will be accepted. These boxes will arrive in time for Christmas if sent

The clothes to be sent overseas do not have to be dry cleaned or mended, you are reminded by Mrs. Ezell.

WTCC Directors Vote to Kill State Ad Valorem Tax

Directors of the West Texas Chamber of Commerce overrode objections to "politics" in their annual meeting last week at Abilene and endorsed a policy program strongly advocating a repeal of the state ad valorem tax levy as well as favoring "teeth" into the requirement for redistricting the state.

Hamlin Director Haskell Carter was among delegates attending the confab at Abilene.

Mayor C. P. Dodson of Decatur, immediate past president of the Texas League of Municipalities and long a West Texas Chamber of Commerce director, was chosen unanimously as president. His predecessor, Herman C. Custard, Cleburne banker, was presented the annual award plaque as "Top West Texan

Sun Returns After Weeks Absence, May Be Clear Thanksgivi'g Union Program

For the first time in over a week the sun returned in all its glory to West Texas Monday morning and streets, roads and mudholes started drying up. At the present time, an uncertain weatherman thinks Old Sol will visit with us at least through Thanksgiving Day.

Sunday evening heavy clouds that had hung over this area for about 10 days started rolling away as dry air moving in from the west forced the clouds eastward.

The cold, dreary weather has brought a total of 2.17 inches of rainfall, according to Bill Rountree, of which only .25 of an inch has fallen since last Thursday.

Rains to Help Small Grains and Pastures in Area

Despite the fact it brought with it an epidemic of bad colds, plenty of muddy roads and sloppy streets. the rains that have hovered over Jones County have been harbngers of cheer to the farmers and ranchers of the section. The slow, drizzling rains that abated late Sunday after a siege of more than a week tallied more than two inches of moisture for the county.

Little running water was noted anywhere in the section. Practically every bit of the moisture roaked into the ground where it fell.

The rainfall is excellent for the pastures, for the wheat that has been seeded and for the lands ready for breaking, Jones County ranchmen and farmers are agreed.

Little damage was suffered by the area's cotton. Moisture and dirt on the cotton will tend to lower the grade of all varieties, and only the nonstorm-proof varieties suffered greater damages from the weather of last week, H. C. Stnley Jr., Jones County farm agent be-

Cotton harvest in Jones County is about 80 per cent completed. Several mechanical pickers had already started operation in the area are dry enough. Itinerant laborers church. have been leaving the section since the bad weather set in, and the clearing up of the balance of the crop will probably be a slow process, observers declare.

The rains, which fell over the entire county, will decrease the blowing hazard for awhile, and they allowed all ginners to catch up with their ginning, clear out seed and recheck their machinery

Ranchers declare that the two inches of moisture now is worth three times that much next summer. Winter weeds and grass will build up a root system during the winter to make more grass for pasture next season.

Legion Auxiliary **Meets Monday Night**

Members of the Ladies Auxiliary to Keifer Patterson Post, American Legion, are urged to attend a meeting of the group at the High School building next Monday night at 7:30 o'clock p. m., according to an announcement by Mrs. Fred Smith, president and Mrs. Fred Carter, re-

Carrying On!!

Although harried by countless last-minute details in publishing this week's paper and the many things that need to be done, during this, our final week of "skippering" The Herald, we would be most ungrateful if we did not pause to write these few words of appreciation.

We are grateful that we have lived in Hamlin for the past year-if it's a sample of West Texas we definiteday-to-day contacts with the business people in the entire community we were privileged to know dura constitutional amendment to put ing this time. We have tried to serve you to the best of our ability and appreciate not only your patronage which we constantly tried to merit, but the many words and acts of thoughtfulness all along the

Hamlin is a good town-let noone tell you otherwise-but, you can can make it an even better town. We predict you will! As we leave to enter a new field, we shall go with a warm spot in our hearts for

this friiendly West Texas town. Carry on-we shall try to do the same!-Don and Jeanelle Bryant

Thanksgiving Wednesday Night

"Goodly Heritage" To Be Subject Of Dr. W. C. House

First War Dead To Arrive Here Soon for Burial

Body of T5 Frank J. Matecha Jr. son of Mr. and Mrs. Frank Matecha. four miles southwest of Tuxedo, was slated to arive in New York City this Tuesday, according to a War Matecha's body, together with 13 other West Texans, was aboard the USAT Robert Burns. He is the first war dead from this area to be returned for re-interment

Killed in action on the European heatre of war, Matecha was removed from the Henri Chappelle Cemeery at Eupen, Belgium.

Military rites are being planned y Hamlin Post of the VFW.

Delegate to Meet

Jones County agricultural agent H. C. Stanley Jr. has been notified as County Agricultural Agent's Association and Copunty Agricultural Agent of Potter County with headquarters in Amarillo, that he has been selected as a delegate to go to the National County Agricultural Agent's Convention in Chicago, Illionis December 1-3.

Stanley will leave for Chicago, Illinois November 28 where he will at tend the National Convention of Country Agricultural Agents, the annual 4-H Club Congress and International Livestock Show. His expenses will be paid by the Texas County Agricultural Agent's Associa.

Christmas Seals Placed on Sale in Drive Against TB

Christmas seals issued by the Texas Tuberculosis Association went on sale in Jones County Monday morning, along with the rest of the state, according to local leaders in the fight against tuberculosis. The seals are sold annually for one cent each, and funds derived are used by the association to wage campaigns of education, research and treatment of the disease in Texas.

In a proclamation officially designating the period from November 24 to December 25 as Christmas Seal Month, Governor Beauford Jester pointed out in a release Sunday that tuberculosis takes an average of 3,000 lives in Texas each year, and kills more people between the ages of 15 and 45 than any other dis-

the fact that the Texas Tuberculosis Association and its affiliated county associations are waging an effective and continuous campaign to control this communicable disease, stating that the funds to carry on their work are derived from the annual sale of Christmas seals. He urged Texans to be generous in their support of the campaign against tuberculosis by buying and using Christ-

Jones County people were expected by leaders to give their usual fine response to the drive.

Cotton Crop Estimate Revised to 11.505,000 Department of Agriculture last

week estimated this year's cotton crop at 11,505,000 bales of 500 gross weight. This estimate is a decrease of 3,000 bales from the 11,508,000 spring. At that time, General Tire's forecast a month ago. Production last year was 8,640,000

bales and 12,390,000 bales for the 10-year (1935-45) average. The department said the yield of

lint cotton per acre was indicated at 261.2 pounds, compared with 235.3 last year and 250.6 for the 10-year average.

In an accompanying report, the Census Bureau said 8,361,685 bales of cotton were ginned prior to November 1. This compared with 5,762,145 bales ginned to the same date last year and 5,151,873 to the same date in 1945.

bowed to the Haskell Indians, 20-0, in their final game of the season Friday night at Haskell. In one of the most disastrous seasons in years. the Pipers failed to win a game all season and tied only one team, the Albany Lions 6-6. Albany and Hant lin tied for the cellar notch in the

league standings Friday night's battle was marked by a scoreless first half and it was midway in the third quarter before the Indians finally struck paydirt Foster galloped 35 yards down the muddy field for the teedee and a few minutes later, a Hamlin punt was blocked down on the 15 stripe. A few plays later the Indians scored

In the fourth quarter Haskell scored on a sustained drive to cinch their second win of the season.

AAA Elections Set For Counties Of This Section

Elections of agricultural conservation community committeemen and delegates to county conventions for the election of a county committee will be held in Jones, Fisher, Stonewall, Haskell and other Texas counties soon it has been announced.

Any person who is participating in the 1947 agricultural conservation program or who had a contract with the Federal Crop Insurance Corporation is eligible to vote. This includes owners, operators, tenants. or share croppers. Lists of eligible voters are being prepared and will be used to check votes cast in the elections.

"This grass roots administration of the farm program is one of the cornerstones of the program," AAA officals said. "It can be made a lot stronger if every eligible farmer will vote in the coming elections and take an interest otherwise in developing the program. This year, with so many problems facing the farmers, it is doubly important that able men are elected to administer the farm program," the official conclud-

The governor called attention to Tire Price Rise Expected in Area By Retail Dealers

A general price boost in tires by all major rubber firms is expected to be felt in Hamlin along with the rest of the country within the next

This action follows the announcement of a 71/2 per cent increase in the retail and wholesale prices on and truck tires by the General Tire & Rubber Company. Local dealers have received word that the increase could be expected his week, with estimates on the raise varying from 71/2 to 121/2 per

soil conservation, with major practices being those of construction of terraces, surface tanks, contour farming row crops, contour seeding small grain, grain sorghum stubbles left on land to prevent wind erosion, phate to legumes and seeding of \$1,497.60. winter legumes.

Leads Texas.

According to Gilpin, Fisher Coun. ty leads in Texas counties and possibly in the nation, in total miles of constructed terraces and in the number of surface tanks. During the four year period, there has been a total of 2.981 miles of constructed terraces in the county through the government program, with the total payments to land owners of \$200,227. The value of top soil saved and the moisture conserved is inestimable. Fisher County cotton fields yielded an average of one-fourth bale to the acre this year without a single rain from May 21 until after harvest was almost concluded. In May, more than seven inches of rain fell in the county, and the terraces held that moisture and sent it to the bottom as a reserve source during the prolonged drouth. In years gone by Fisher County would have been faced with another crop failure.

Heavy year of terrace construction was in 1944 when 1,560 miles were built, netting land owners \$90.612.54. This year, 522 miles of terraces were constructed, with total payments of \$41, 354.96. Mileage in 1945 was 294; in 1946, 605. West of Rotan, terraced fields have kept rainfall from pouring into Hackberry Creek and flooding the town as was the case in earlier days. The flooding of the town the past spring was caused by a heavy cloudburst in that area that demolished practically every terrace, causing thousands of dollars damage to farmlands. Country lanes in Fisher County used to grow head high in sunflowers, nourished in rich topsoil washed from bordering fields, waste of soil, dollars and cents now eliminated by the adoption of

Surface Tanks.

The major year for surface tank construction also was 1944, when 490 tanks were build, with government payments netting owners \$120. total for the four years of 762. Total 1945; 117 in 1946; and 85 in 1947; a 000. Only 70 tanks were built in government payments to owners was \$179,883.54.

George H. Carter, Roby, AAA field man, said that when the tank buildin program began in 1944, 25 per cent of land owners in the county had inadequate surface tank water supplies. Farmers usually had one small tank that caught water in the fall and dried up in the summer, necessitating the hauling of stock water during the busy crop seasons. Now farmers and ranchers have more and better tanks, with adequate water supply the year round.

The newest farm practice, the eding of winter legumes—mostly vetch and abruzzi rye, was adopted for 1947. Legumes were seeded on about 1,200 acres in the fall of 1946. The practice, designed to build depleted soils, prevent water erosion, provided winter and early spring grazing, and as a cash crop from seed harvest in late spring, has

Q.-How can the dairyman conserve on grain?

A .- The dairyman can do a lot toward grain conservation if he will (1) Feed cows according to production by weighing the milk and feeding accordingly; (2) cull dairy herds carefully and intelligently. Sale of low producing and defective cows will increase the meat supply as well conserve grain.

ogs save corn?

of corn for every 600 pounds of and thighs are well fleshed. pork. For instance, 50 pounds of pig and hog chow and five and onehalf bushels of corn on a feeding bushels of corn fed straight.

Q.- How often should poultry locks be culled?

ant now when grain must be conserved. More and more poultrymen are culling on a monthly basis. They o into the houses at night when he birds are on the roost and use a trong flashlight, removing all birds which show "crow heads," pale and shriveled combs, yellow beaks and other indications of being out of production. This system has the advantage of not disturbing the birds of the entire flock.

Q.-How can you till by its appearance when a turkey is ready for market?

A .- A turkey is ready for market on: (a) The skin on the pressi is light in color and no dark meat Q.-Will feeding a supplement to shows through the fat; (b) It is fairly free from pin feathers; (c) A .- A good supplement can save fat is deposited over the bird in

mash ration be given grit?

A .- No, grit is unnecessary as plan can do the job of about 12 chickens can digest such a ration without use of grit just as well.

Selection of Family A.—Culling is particularly import. Physician Is Aid to Treating Ailments

According to Dr. George W. Cox, ate health officer, there are too nany Jones County persons who pproach the choice of a family hysician casually. Viewing the doctor much as a fireman, whose services are required only in an emergency, such families wait until an illness strikes, and then get hold and does not require the handling of the first doctor who can respond

> While such an attitude still reasonably assures one of satisfactory medical services, it can handicap the physician semewhat, and in the long run does not permit the supervision and close personal contact allich can only exist by having a regular family doctor.

"Knowing his patients enables a about six to six and one-half bushels broad layers; and (d) the breast physician to give advice on maintaining health and preventing dis-Q .- Should broilers fed an all- ease, based on his intimate knowle're of the physical and mental make-ip of the members of the family, Dr. Cox stated. casually summoned physician plainly cannot have this background or opportunity. It is well known to students of medical science that no one procedure or drug can be applied to the cure of every disease. It would indeed be fine if we could have some panacea for all diseases, but unfortunately the health art is not as simple as that."

"People are far from being alike, he continued. "Bodily and mental characteristics markedly differ in members of the same family. Reactions to medicines of various types, the habits of the individual environmental influences, and personal factors vary widely. Armed with an intelligent appreciation of these facts, as applied to the members of the family, a physician possesses the maximum opportunity to render his best advice, not only in curing disease, but as medical counselor to the family as a

Office over F & M Bank

Those who have the most to say about the dignity of labor and the nobility of man's earning his bread by the sweat of his brow are usually orators or writers.

The most cheerful man I have ever known was an invalid. His pody was slowly turning to stone. And the most cheerful girl I ever saw was a helpless paralytic.

They smiled and laughed and said gay things. The visitor, calling to cheer them up, found that they cheered him up. The very room was brightened by their presence.

The human spirit is a marvelous thing. At its brave best, it cannot be crushed. It rises above disease and suffering, even as a skylark soars above a battlefield and, soaring sings.

A friend of mine writes that he read clear through my newest production, "Cub Reporter," after supper one night, I'm slipping-my other books always put 'em to sleep by the time they'd read 10 pages.

Just two or three years ago, "A Tree Grows in Brooklyn" was at the top of the best seller list-now it's on sale at 49 cents. So passes the glory of this world.

Finley Peter Dunne (as famous, back around 1900 under his pen name of "Mr. Dooley," as Will Rogers was durng his lifetime) was a reporter. He started on the smallest of the Chicago dailies, the Express. One day, he and another reporter were looking out the news room window when a funeral procession went by. Dunne said, "I hope it's not the Express' subscriber.'

Mark Twain declared that, of all creatures, man is the only one that can blush—or needs to.

Living Cost at New All-Time High for Month of September

Hamlin and Jones County housewives were concerned at the report that retail food prices in September hit a record high, sending the cost of living up another two per cent for moderate-income families. This information was released by the Bureau of Labor Statistics Friday.

Preliminary estimates placed the consumers' price index at a peak of about 164 per cent of the 1935-39

The September index is 12 per cent higher than a year ago, 23 per cent above June, 1946, when most OPA controls were abandoned, and 66 per cent over the August, 1939,

The food index for September was 203.5 per cent of the 1935-39 averafe. This was 40 per cent above June, 1920, the post-war peak of World War I. The consumers' price index is

based on surveys in 18 cities of retail prices of goods and services purchased by moderate income fam-

Plans Made to Test Ellenburger Sand In Jones Griffin Pool, East of Avoca

Oil circles are slated to watch with a great deal of interest the attempt for deeper production in the Grif-fin Pool, east of Avoca. Present production is from the Palo Pinto reef and plans have been announced by Ungren & Frazier et al to test for deeper pay, location set at the No. 5 Cox and Hamilton estate, 467 feet from the east and 1,384 from the north line of section 21 block 4 of the H&TS Survey.

Special hearing has been requested for the well, a twin to the same operator's No. 1 and drilling is to begin as soon as permit is granted. The permit, for 5,400 feet with rotary, specifies that the well will not be completed in the regular field pay at about 3,270 feet, nor in any pay above that point.

Ten miles west of Anson, drilling is to begin in the near future on a new 3,900 foot test, the Ungren & Fraizer et al No. 1 H. L. Bartlett, 330 feet from the south and east lines of the northwest quarter of Says H-S U Dean section 43 block 2 SP Survey. It is one to be drilled with rotary.

Six miles northwest of Merkel, Wrather, Penn & Walters have filed application to drill the No. 1 C.

On permit to 2,60 Ofeet with rotary, the well is a short northeast offset to the Humble Oil & Refining Company, No. 1 Bishop which logged shows both in the Noodle Creek at about 2,600 feet and in the Ellen burger but was plugged after failing to develop commercial production from the deep pay.

The new production area of Jones County three and a half miles north east of Hawley has been given a new extension try in location of the J. C. Hunter Jr., No. 3 W. A. Minter.

On permit for 2,400 feet with cable found in the No. 1-B Minter, a southwest offset.

Meanwhile, operators were preunit on the J. C. Hunter Jr., No. 1-B

The well had been treated with 500 gallons of acid after plug was drilled in casing set at 2,356 feet, five feet below the top of the Swastika lime. Total depth was 2,370 feet. Initial estimates are for about 50 barrels of oil per day.

In the Hardy field, 14 miles east of Hamlin, rainy weather delayed moving in of rig to start the first offset to the pool's new production area, the Great Lakes Carbon Corporation, No. 2 E. V Hardwick. It is to test to the regular field pay, or

Applications for special permits have been filed for two new Wimberly field locations 12 miles northwest of Abilene. They are the Clark & Cowden Drilling Corporation, No. 5 Mashburn estate, and the No. 6 Mashburn. Both applications are for dual completions.

Bromfield Flays Farm Subsidies, Tariffs, Parities

Subsidies, tariffs, parities, price ceilings and all the complications of the nation's agricultural economy are makeshifts which solve nothing and continue to undermine prosperty and living standards, Author Louis Bromfield said at Houston last week as he concluded the annual meeting of the Land Society with a

lar.d-use lecture. "What we need in this country is not more dollars but dollars which buy more and more, and we shall get dollars which buy more only through intelligent use of our national resources and real wealth," Bromfield told an audience of 1,500

Assembly of God **Special Service** Friday Evening

A special worship service will be held at the Assembly of God Church of Hamlin Friday evening, according to the pastor, Rev. T. F. Miles. Rev. Harold C. Miles, son of the pastor and a teacher in Wesleyan Col-

lege in Fort Worth, will preach. The service will begin at 7:00 o'clock p. m. and everyone is cordially invited to attend.

Special musical numbers have been arranged for this service.

American Policy To Grow Firmer

(Editor's Note-The subject of this interview, Dean Stephenson, was born and reared in Mc-Caulley and is well-known there and in Hamlin. His mother, Mrs. Etta Stephenson, now lives in Hamlin and teaches an adult class in the First Baptist Sunday School. The writer, Grady Lackey, is a journalism major at Hardin-Simmons University, Abilene and is employed parttime at The Hamlin Herald.)

By Grady Lackey

"American appeasement is about to be ended, and a firmer policy is in the making—one that we must be willing to fight, if necessary, to carry out," state W. A. Stephenson, astools, it will check for King sand sistant Dean and professor of Gov-No. 2 Shanks, one location to the sity, Abilene. Stephenson is a forwest, and the Swastika lime pay mer district governor of Rotary International.

Stephenson believes that Russia paring to take official gauge after defnitely has aspirations toward installation of tanks and pumping world domination, and that the only way that the Amercan people can combat it is by presenting the world with a better idea—that of a working democracy.

> "Russia now loans as the greatest menace ever to confront the American people. The present communistic program is aimed at reducing all people to a commor denominator under state control.

Although com.nunism has improv_ ed conditions in Russia, it is directly contrary to the American way of life in that it essentially calls for the submission of the individual, believes Stephenson.

"Russia today is not purely communistic, but is in the control of a very small communistic minority that has complete control of all of the phases of Russian life. The Russian people are not for communism under the present system, but at present have no choice in the matter since, in Russia today, it is a crime to think

"We do not understand the methods the communists are using to undermine our American institutions." relates the dean. "The communists are attacking us more through organized labor and have indulged in the misrepresentation of facts to promote confusion and mistrust Communism thrives on confusion and unrest, well aware of the fact that people will throw away everything for security."

Stephenson believes that commun_ ism in America can best be combated by educating the American people to a familiarity with and a willingness to fight for our own institutions. At present, the people of the United States are conscious of what AdValorem Tax is going on, but do not know how to fight it

"It is not the government's duty, but the duty of the people to stamp out the communist move in America," relates Dean Stephenson.

He is under the impression that democracy and communism can exist in a world at peace, but of both schools of thought include the idea tha tone or the other has to be eliminated, war is inevitable.

"The United Nations, at present is not strong enough to efficiently cope with the problems at hand, but the face an outright disputes are be. ing openly discussed within the UN by delegates is evidenced that we do have a world forum, which is a great step in the right direction.

"If peace can be maintained for 10 years, the United Nations will have gained sufficient power to hold that prace for at lease a generation, possibly longer," concluded Stephenson.

A-N Football Game for Hamlin Set for December 6

Hamlin football fans will have an oppartunity to see ni minature that famous battle of the gridiron—the Army versus the Navy-at Pied Pi-

According to plans announced today (Wednesday) by the Hamlin post of Veterans of Foreign Wars. two teams have been recruited (ughthat's a repulsive word) and the local veterans of both branches service are set to bang one another's

The game will be played on Saturday night, December 6, with the kickoff set for 7:30 o'clock p. m.

Admission will be \$1 per person and the funds derived from sale of tickets will be used to buy uniforms for the group that will conduct military burial services for veterans whose bodies are being returned to the area for final interment. The lineups are as follows:

Orphans Abroad And At Home Are Being Remembered

New and good used clothing are being collected for Buckner's Orphanage, according to Mrs. J. W. Ezell, chairman of the benevolence committee of the Women's Missionary Society of the First Baptist Church of Hamlin. Mrs. Pack Miles, Mrs. Ben Parker and Mrs. R. C. Ritchey are members of this coinmittee. You are invited to bring your contribution to the Baptist Church early this week in order that al contributions may be sent at one

Seven large boxes of used clothing were packed for the needy overseas last Monday by the WMS. Other boxes will be packed and you are urged to search your clothes closets for articles which you can do without that might save some Clothes or shoes for any age will be accepted. These boxes will arrive in time for Christmas if sent

The clothes to be sent overseas do not have to be dry cleaned or mended, you are reminded by Mrs. Ezell.

WTCC Directors Vote to Kill State

Chamber of Commerce overrode objections to "politics" in their annual meeting last week at Abilene and endorsed a policy program strongly advocating a repeal of the state ad valorem tax levy as well as favoring a constitutional amendment to put "teeth" into the requirement for redistricting the state.

Hamlin Director Haskell Carter was among delegates attending the confab at Abilene.

Mayor C. P. Dodson of Decatur, immediate past president of the Texas League of Municipalities and long a West Texas Chamber of Commerce director, was chosen unanimously as president. His predecessor, Herman C. Custard, Cleburne banker, was presented the annual award plaque as "Top West Texan of 1947."

Sun Returns After Weeks Absence, May Be Clear Thanksgivi'g Union Program

For the first time in over a week the sun retarned in all its glory to West Texas Monday morning and streets, roads and mudholes started drying up. At the present time, an uncertain weatherman thinks Old Sol will visit with us at least through Thanksgiving Day.

Sunday evening heavy clouds that had hung over this area for about 10 days started rolling away as dry air moving in from the west forced the clouds eastward.

The cold, dreary weather has rainfall, according to Bill Rountree, of which only .25 of an inch has fallen since last Thursday.

Rains to Help Small Grains and Pastures in Area

Despite the fact it brought with of muddy roads and sloppy streets. the rains that have hovered over of cheer to the farmers and ranchers of the section. The slow, drizzling rains that abated late Sunday after a siege of more than a week tallied more than two inches of moisture for the county.

Little running water was noted anywhere in the section. Practically every bit of the moisture roaked into the ground where it fell.

The rainfall is excellent for the pastures, for the wheat that has been seeded and for the lands ready for breakng, Jones County ranchmen and farmers are agreed.

Little damage was suffered by the area's cotton. Moisture and dirt on the cotton will tend to lower the grade of all varieties, and only the nonstorm-proof varieties suffered greater damages from the weather of last week, H. C. Stnley Jr., Jones County farm agent be-

Cotton harvest in Jones County is about 80 per cent completed. Several mechanical pickers had already started operation in the area are dry enough. Itinerant laborers | church. have been leaving the section since the bad weather set in and the clearing up of the balance of the crop will probably be a slow process, observers declare.

The rains, which fell over the entire county, will decrease the blowing hazard for awhile, and they allowed all ginners to catch up with their ginning, clear out seed and recheck their machinery.

Ranchers declare that the two inches of moisture now is worth three times that much next summer. Winter weeds and grass will build up a root system during the winter to make more grass for pasure next season.

Legion Auxiliary Meets Monday Night

Members of the Ladies Auxiliary to Keifer Patterson Post, American Legion, are urged to attend a meeting of the group at the High School building next Monday night at 7:30 o'clock p. m., according to an announcement by Mrs. Fred Smith, president and Mrs. Fred Carter, re-

Carrying On!!

Although harried by countless last-minute details in publishing this week's paper and the many things that need to be done, during this, our final week of "skippering" The Herald, we would be most ungrateful if we did not pause to write these few words of appreciation.

We are grateful that we have lived in Hamlin for the past year-if it's a sample of West Texas we definiteday-to-day contacts with the business people in the entire community we were privileged to know during this time. We have tried to serve you to the best of our ability and appreciate not only your patronage which we constantly tried to merit, but the many words and acts of thoughtfulness all along the

Hamlin is a good town-let noone tell you otherwise but, you can can make it an even better town. We predict you will! As we leave to enter a new field, we shall go with a warm spot in our hearts for this friiendly West Texas town. Carry on-we shall try to do the

same!—Don and Jeanelle Bryant

Thanksgiving Wednesday Night

"Goodly Heritage" To Be Subject Of Dr. W. C. House

"Our Goodly Heritage," has been chosen by Dr. Will C. House as the subject for the union church servbrought a total of 2.17 inches of very fine speaker and the public is W. E. Nunn pastor of the Calvary

> The service will begin at 7:30 o'clock p. m. in the main auditorium of the First Baptist Church.

A special offering will be taken to be given to the Hamlin Memorial Hospital Fund to be used where it is most needed.

Mrs. Hattie Warnell, of the it an epidemic of bad colds, plenty | Church of the Nazarene, will sing a solo. Rev. J. T. Crawford will lead Branscum, of the Calvary Baptist

> Four Square Church, will read the scripture, the 8th chapter of Deuter. onomy. J. B. Smith, music director of the First Baptist Church, wil. sing, "A Child Of The King."

> Following a song by the congregation, Perry Sparks, Mr. and Mrs. L. H. McBride and Mrs. Bill Rountree, will sing a special number.

At the conclusion of Dr. House's address, Rev. John H. Osteen, pastor of the host church, will give the benediction.

All singers from any church are invited to fill the choir and have a part in the singing.

Mary-Martin Class Banquet Monday Evening

Members of the Mary-Martin Sunday School class of the Hamlin First Baptist Church enjoyed a love. before the rain, and are slated to ly Thanksgiving banquet Monday get back on the job as soon as fields evening in the basement of the

Arrangement and decorating committee was composed of Mrs. Cecil Brown, Mrs. Clifford Stuart, Mrs. V. T. Stringer, Mrs. Edward W. Gardner and Mrs. Henry Holloway.

The long banquet tables were laid with white linen. The head table was centered with a beautiful arrangement of fruit with white tapers in yellow holders at each side. Marigolds centered the other tables and chrysanthemums were used to decorate the piano

Chicken and dressing, cranberry sauce, candied yam's, green beans, fruit and congealled salads, celery, olives, pickles, and home-baked cherry pie and coffee composed the

H. C. Stanley Jr. has been notified by Art Bralley, secretary of the Texas County Agricultural Agent's Association and Copunty Agricultural Agent of Potter County with headquarters in Amarillo, that he has been selected as a delegate to go to the National County Agricultural Agent's Convention in Chicago, Illionis December 1-3.

Stanley will leave for Chicago, Illinois November 28 where he will attend the National Convention of Country Agricultural Agents, the annual 4-H Club Congress and International Livestock Show. His expenses will be paid by the Texas County Agricultural Agent's Associa.

Christmas Seals Placed on Sale in Drive Against TB

Christmas seals issued by the Texas Tuberculosis Association went on sale in Jones County Monday morning, along with the rest of the state, according to local leaders in the fight against tuberculosis. The seals are sold annually for one cent each, and funds derived are used by the association to wage campaigns of education, research and treatment of the disease in Texas.

In a proclamation officially designating the period from November 24 to December 25 as Christmas Seal Month, Governor Beauford Jester pointed out in a release Sunday that tuberculosis takes an average of 3,000 lives in Texas each year, and kills more people between the ages of 15 and 45 than any other dis-

the fact that the Texas Tuberculosis Association and its affiliated county associations are waging an effectiv and continuous campaign to control this communicable disease, stating that the funds to carry on their work are derived from the annual sale of Christmas seals. He urged Texans to be generous in their support of the campaign against tuberculosis by buying and using Christmas seals.

Jones County people were expected by leaders to give their usual fine

Cotton Crop Estimate Revised to 11.505,000

week estimated this year's cotton crop at 11,505,000 bales of 500 gross weight. This estimate is a decrease the 10 per cent slash instituted last of 3,000 bales from the 11,508,000 spring. At that time, General Tire's forecast a month ago.

Production last year was 8,640,000 bales and 12,390,000 bales for the 10-year (1935-45) average.

The department said the yield of lint cotton per acre was indicated at 261.2 pounds, compared with 235.3 last year and 250.6 for the 10-year average.

In an accompanying report, the Census Bureau said 8,361,685 bales of cotton were ginned prior to November 1. This compared with 5,762,145 bales ginned to the same same date in 1945.

Hamlin's Pied Piper football team bowed to the Haskell Indians, 20-0, in their final game of the season Friday night at Haskell. In one of the most disastrous seasons in years, the Pipers failed to win a game all season and tied only one team, the Albany Lions 6-6. Albany and Hastin lin tied for the cellar notch in the

Friday night's battle was marked by a scoreless first half and it was midway in the third quarter before the Indians finally struck paydirt Foster galloped 35 yards down the muddy field for the teedee and a few minutes later, a Hamlin punt was blocked down on the 15 stripe. A few plays later the Indians scored

league standings.

In the fourth quarter Haskell scored on a sustained drive to cinch their second win of the season.

Conference Standings. Here is the final tabulation of

Basketball Next.

Basketball workouts were started Monday by the Pipers and Coach L. B. (Red) Howard reported that only two lettermen, Billy Franks and Jack Owens were on the squad. Several of those reporting were on last year's "B" team.

AAA Elections **Set For Counties** Of This Section

Elections of agricultural conservation community committeemen and delegates to county conventions for the election of a county committee will be held in Jones, Fisher, Stonewall, Haskell and other Texas counties soon it has been announced.

Any person who is participating in the 1947 agricultural conservation program or who had a contract with the Federal Crop Insurance Corporation is eligible to vote. This includes owners, operators, tenants, or share croppers. Lists of eligible voters are being prepared and will be used to check votes cast in the elections.

"This grass roots administration of the farm program is one of the cornerstones of the program," AAA officals said. "It can be made a lot stronger if every eligible farmer will vote in the coming elections and take an interest otherwise in developing the program. This year, with so many problems facing the farmers, it is doubly important that able men are elected to administer the farm program," the official conclud-

The governor called attention to Tire Price Rise Expected in Area By Retail Dealers

A general price boost in tires by all major rubber firms is expected to be felt in Hamlin along with the rest of the country within the next

This action follows the announcement of a 71/2 per cent increase in the retail and wholesale prices on and truck tires by the

General Tire & Rubber Company. Local dealers have received word hat the increase could be expected his week, with estimates on the Department of Agriculture last raise varying from 71/2 to 121/2 per

> cuts were slightly less than those put into effect by other tire manuacturers.

> In some instances, local dealers expect an increase in the price of tubes. However, there has been no change in price by General along that line. Tractor and pneumatic tires have been increased five per

terraces, surface tanks, contour farming row crops, contour seeding small grain, grain sorghum stubbles left on land to prevent wind erosion, small grain cover crops, pear and winter legumes.

Leads Texas.

According to Gilpin, Fisher Coun. ty leads in Texas counties and possibly in the nation, in total miles of constructed terraces and in the number of surface tanks. During the four year period, there has been a total of 2,981 miles of constructed terraces in the county through the government program, with the total payments to land owners of \$200,227. The value of top soil saved and the moisture conserved is inestimable Fisher County cotton fields yielded an average of one-fourth bale to the acre this year without a single rain from May 21 until after harvest was almost concluded. In May, more than seven inches of rain fell in the county, and the terraces held that moisture and sent it to the bottom as a reserve source during the prolonged drouth. In years gone by

Fisher County would have been fac-

ed with another crop failure. Heavy year of terrace construction was in 1944 when 1,560 miles were built, netting land owners \$90,612.54. This year, 522 miles of terraces were constructed, with total payments of \$41, 354.96. Mileage in 1945 was 294; in 1946, 605. West of Rotan, terraced fields have kept rainfall from pouring into Hackberry Creek and flooding the town as was the case in earlier days. The flooding of the town the past spring was caused by a heavy cloudburst in that area that demolished practically every terrace, causing thousands of dollars damage to farmlands. Country lanes in Fisher County used to grow head high in sunflowers, nourished in rich topsoil washed from bordering fields, waste of soil, dollars and cents now eliminated by the adoption of

Surface Tanks.

The major year for surface tank construction also was 1944, when 490 tanks were build, with government payments netting owners \$120. total for the four years of 762. Total 1945; 117 in 1946; and 85 in 1947; a 000. Only 70 tanks were built in government payments to owners was \$179,883.54.

George H. Carter, Roby, AAA field man, said that when the tank buildin program began in 1944, 25 per cent of land owners in the county had inadequate surface tank water supplies. Farmers usually had one small tank that caught water in the fall and dried up in the summer, necessitating the hauling of stock water during the busy crop seasons. Now farmers and ranchers have more and better tanks, with adequate water supply the year round.

The newest farm practice, the seeding of winter legumes-mostly vetch and abruzzi rye, was adopted about 1,200 acres in the fall of 1946. The practice, designed to build depleted soils, prevent water erosion, provided winter and early spring grazing, and as a cash crop from seed harvest in late spring, has

Contour Farming.

In the practice of coutour farming row crops during 1944, 1,544 out of the 1,800 farms in the county participated. Total farm participation during the four year period was 5,375, with total payments from the government of \$281,327.52.

During the four year period, a total of 17 farms constructed 58,590 cubic yards of diversion terraces, with total payments amounting to \$4,687.30. A total of 79 wells for

Selection of Family Physician Is Aid to Treating Ailments

According to Dr. George W. Cox. ate health officer, there are too nany Jones County persons who approach the choice of a family physician casually. Viewing the doctor much as a fireman, whose services are required only in an emergency, such families wait until an illness strikes, and then get hold of the first doctor who can respond to the call.

While such an attitude still reasonably assures one of satisfactory medical services, it can handicap the physician semewhat, and in the long run does not permit the supervision and close personal contact allien can only exist by having regular family doctor.

"Knowing his patients enables a physician to give advice on maintaining health and preventing disease, based on his intimate knowle're of the physical and mental make-ip of the members of the family, Dr. Cox stated. casually summoned physician plainly cannot have this background or opportunity. It is well known to students of medical science that no one procedure or drug can be applied to the cure of every disease. It would indeed be fine if we could have some panacea for all diseases, but unfortunately the health art is not as simple as that.'

"People are far from being alike, he continued. "Bodily and mental characteristics markedly differ in members of the same family. Reactions to medicines of various types, the habits of the individual, envitonmental influences, and personal factors vary widely. Armed with an intelligent appreciation of these facts, as applied to the members of the family, a physician possesses the maximum opportunity to render his best advice, not only in curing disease, but as medical counselor to the family as a whole."

Ideal Steam Laundry Office over F & M Bank

Those who have the most to say about the dignity of labor and the nobility of man's earning his bread orators or writers

The most cheerful man I have ever known was an invalid. His body was slowly turning to stone. And the most cheerful girl I ever saw was a helpless paralytic.

They smiled and laughed and said gay things. The visitor, calling to cheer them up, found that they cheered him up. The very room was brightened by their presence.

The human spirit is a marveious thing. At its brave best, it cannot be crushed. It rises above disease and suffering, even as a skylark soars above a battlefield and, soaring sings.

A friend of mine writes that he read clear through my newest production, "Cub Reporter," after supper one night, I'm slipping-my other books always put 'em to sleep by the time they'd read 10 pages.

Just two or three years ago, "A Tree Grows in Brooklyn" was at the top of the best seller list-now it's on sale at 49 cents. So passes the glory of this world.

Finley Peter Dunne (as famous, back around 1900 under his pen name of "Mr. Dooley," as Will Rogers was durng his lifetime) was a reporter. He started on the smallest of the Chicago dailies, the Express. One day, he and another reporter were looking out the news room window when a funeral procession went by. Dunne said, "I hope it's not the Express' subscriber.'

Mark Twain declared that, of all creatures, man is the only one that can blush-or needs to.

Living Cost at New All-Time High for Month of September

Hamlin and Jones County housewives were concerned at the report that retail food prices in September hit a record high, sending the cost of living up another two per cent for moderate-income families. This information was released by the Bureau of Labor Statistics Friday.

Preliminary estimates placed the consumers' price index at a peak by the sweat of his brow are usually of about 164 per cent of the 1935-39 average.

> The September index is 12 per cent higher than a year ago, 23 per cent above June, 1946, when most OPA controls were abandoned, and 66 per cent over the August, 1939,

The food index for September was 203.5 per cent of the 1935-39 averafe. This was 40 per cent above June, 1920, the post-war peak of World War I.

The consumers' price index is based on surveys in 18 cities of retail prices of goods and services purchased by moderate income fam-

Letters to SANTA CLAUS

(Editor's Note-The following two letters to Santa Claus had been received by The Herald Monday night. Similiar letters from children will be published in the future.)

Dear Santa:

I want a bicycle. Please.

John Amon Weaver

I am a little girl seven years old. My name is Peggy Jo Maberry. would like very much to have a Sparkle Plenty doll an Ideal doll trunk, packed full of clothes for my doll. Oh yes, please, don't forget my little brother, Al Jr., he wants a tricycle. I hope you can come to our house. We want some things like candies, nuts, nigger-toes and fruit in our stockings.

With Love,

Peggy Jo Malerry

Blessed Events

Mr. and Mrs. Calvin Embrey are the parents of a con, born Monday morning in a Rotan hospital.

Mr. and Mrs. John E. Crow Jr. are parents of a son, born November 11 in a Rotan hospital. He weighed seven pounds and six ounces and has been named Mchael Alan.

Tom M. Price At McCaulley

Tom M. Price, 76, died Thursday November 20 at a hospital in Rotan. He was a farmer, who resided south of McCaulley.

Funeral services were held Thursday afternoon at the McCaulley Baptist Church with the pastor, Rev. C. E. Dick, officiating. Interment was in the McCaulley Cemetery.

Mr. Price was born September 2 1871 in Freestone County but had lived in the McCaulley community most of his life.

He is survived by his wife and several children.
